Moonage Daydream

A David Bowie Musical Documentary

Follow the creative, spiritual, and musical journey of David Bowie in [Moonage Daydream](#). The new release features never-before-seen footage and performances. The film brings forth the presence of Bowie through its artistic rendition of his life. There is high praise all around for the film, Peter Bradshaw from The Guardian states that Moonage Daydream is "A kaleidoscope odyssey through David Bowie's

brilliance." Ciders from Mars owner Nikki West and her Bowie-inspired band the Jean Jeanies will perform before the film and host a Q&A after the film.

What A Success!

This October we had a very successful Music At The Movies. A stunning performance from Thomas Wagner and friends with a compelling discussion after the film. We also had one of our largest turn-outs since Music At The Movies began.
