

CAPITAL CAMPAIGN PROGRESS

As many of you know, we have a once-in-a-lifetime opportunity to receive \$1.5M from the Virginia Department of Housing & Community Development as a grant from the Industrial Revitalization Fund (IRF). Hence, our current campaign to secure the match.

A capital campaign is a constantly moving, growing, morphing organism. As soon as I write a newsletter it is out of date. While I typed that sentence, another donation was made on our website. That's good news!

Every day our P.O. Box is filled with checks. We are completely humbled and amazed by Staunton's generosity.

A quick snapshot of recent events:

- City Council voted unanimously to sponsor our \$1.5M IRF grant application which is now submitted. We hope to hear something soon.
- Our historic tax credit application, in Frazier & Associates' capable hands, is underway with Part 1 approved by the Department of Historic Resources in Richmond.

That's where you come in: our goal has always been to open with as little debt as possible. **We're at a critical phase.** Your generous donation NOW will signal your support to the IRF during their review process and will **help us cross the finish line.**

Your support will help resurrect a cherished downtown landmark! THANK YOU!

Sincerely,
Pamela Mason Wagner, Executive Director
