Spellbound Supporters 🧙‍♂️ ✨ ✨

At the Arcadia Project, **our volunteers and partners make the magic happen.**

LAUNCH is a post-high program, located in Fishersville, dedicated to supporting young adults with disabilities. Their main goal is to help these individuals develop the skills and confidence for adulthood through different projects and connecting with the community. The LAUNCH program has partnered with us at the Arcadia Project to create a **beautiful sculpture of a baby dragon** that can be seen inside the maze. These talented students built, designed, and painted the baby dragon themselves!

We're so excited to work with the students at LAUNCH as their hard work and dedication mean a lot to us and to the entire community. To learn more about LAUNCH's work on the maze, read more about them at the [News Leader!](#)
